Slawson

5/7/77

Dear Mark, allen

Goff's 11/11 with your 5/5 does not say Secret Service does not have copies of Dpos 912 and 916. I do not know what hemmmeans byt their not being within the Secret Service recordsx system. Howver, his letter is enough to go to the Archives with. Within my expeirence they are not honest.

Archives has not responded to my inquires about and requests for the new releases. Is it official? That is, are others getting it?

If so I must protest. I have $100 on deppsit to cover costs and assure promptness.

While I recall talk about exhuming Oswald I do not recall it is a Commission function and I recall nothing within Slawson's area of responsibility that should have had him foinding out that for this Humes was just fine, as Specter told him. In arch yet!

Many thanks,
